

# International taxes

Within **International Taxes**, we always bear in mind the expansion needs of our clients that is why we support them by offering the assistance of our international specialists through our worldwide **Grant Thornton International** network.

The Mexican tax legislation is complex; accordingly, application and interpretation of the law is a real challenge and when this law coexists with international tax treaties, work becomes complicated and it should be done by specialists.

At **Salles, Sainz – Grant Thornton, S.C.** we know that advisory and support in this field are vital for the growth of our clients' business. Therefore, we have specialists in **International Taxation** whose mission is to ease our clients' business activities with foreign rules. We also offer our experience in areas such as guiding international companies which want to settle their branches in Mexico and want to comply with all of our country's tax and legal requirements, etc.

The main objective of **International Taxes** is to offer tax advise and consulting services in connection with transactions with companies that are based abroad, whether related parties or subsidiaries in Mexico.

Our advisory services specialize on:

- international tax treaties
- tax to avoid double taxation
- residents abroad
- expatriates
- foreign workers

- social welfare
- plans and benefits
- risk classification, judgment and diagnosis
